CATALOG DESCRIPTION

Professional language of veterinary medicine. Analysis of veterinary medical terms by roots and combining forms. Discuss processes, anatomy, diagnostic and therapeutic procedures for each body system. Selected veterinary medical specialties.

PREREQUISITES

None

EXPECTED STUDENT OUTCOMES IN THE COURSE (ESO)

Upon completion of this course, the student will be able to:

1. Demonstrate verbal and written communication using appropriate veterinary medical terminology
2. Specify how veterinary medical terms are formed, analyzed, and defined.
3. Identify and categorize veterinary terms by body systems or disease processes.
4. Analyze veterinary articles and summarize the material.
5. Compare and contrast veterinary terms according to their desired purpose or meaning.

GENERAL EDUCATION OUTCOMES (ESO)

Specify which general education outcomes, if any, are substantially addressed by the course. Numbers in parentheses identify the Expected Student Outcomes linked to the specific General Education Outcome.

Outcomes ESO

1.
PROGRAM-LEVEL OUTCOMES

CAREER AND TECHNICAL EDUCATION PROGRAM OUTCOMES
Specify which Career and Technical program outcomes, if any, are substantially addressed by the course by completing the “Career and Technical Education template” to show the relationship between course and program outcomes to assessment measures.

1.

CLASS-LEVEL ASSESSMENT MEASURES
Student accomplishment of expected student outcomes may be assessed using the following measures. (Identify which measures are used to assess which outcomes.)

1. Written examination (1-5)
2. Weekly assignments (1-5)
3. Presentations (1,4)
4. Final examination (1-5)
Individual instructors may order this outline as fits the needs of their individual courses. In addition, they may place more emphasis on some areas than on others. What is assured is that this particular list is covered in the course. Other topics may be added to a course as the instructor sees fit, and as time and interest allow. An *asterisk can be used to mark an item as optional.

I. Word part recognition of veterinary terms

II. Animal species specific terminology
   A. Canine and feline
   B. Equine
   C. Ruminant
   D. Swine
   E. Avian
   F. Laboratory animal

III. Body system terminology
   A. Musculoskeletal system
   B. Gastrointestinal system
   C. Urinary system
   D. Cardiovascular system
   E. Respiratory system

IV. Veterinary Medical Categories
   A. Dermatology
   B. Endocrinology
   C. Reproduction
   D. Neurology
   E. Ophthalmology
   F. Immunology
   G. Dentistry
   H. Pharmacology
