COURSE INFORMATION FORM

DISCIPLINE: INTE
COURSE TITLE: Industrial Technologies Internship II

CR.HR  3    LECT HR.  _______  LAB HR.  _______  CLIN/INTERN HR.  _______  CLOCK HR.  20

CATALOG DESCRIPTION
This course is designed to give the student real world experience in the industrial technologies field. The student will perfect techniques and job responsibilities learned in prior courses under the direction of a mentor.

PREREQUISITES

EXPECTED STUDENT OUTCOMES IN THE COURSE
Upon completion of this course, the student will be able to:

1. Perform job responsibilities as outlined in the Learning Goals Worksheet.
2. Allocate resources per job duties and responsibilities.
3. Communicate in the work environment as required per job duties and responsibilities.
4. Acquire and interpret necessary information per job duties and responsibilities.
5. Understand, monitor and correct performance per job duties and responsibilities.
6. Select and use appropriate technology to complete job duties and responsibilities.
7. Calculate necessary mathematics per job duties and responsibilities.
8. Demonstrate an understanding of effective written communication per Worksite Learning Log and job duties and responsibilities.
9. Demonstrate an understanding of problem-solving techniques per job duties and responsibilities.
10. Demonstrate an understanding of appropriate personal qualities per job requirements.
CLASS-LEVEL ASSESSMENT MEASURES

Student accomplishment of expected student outcomes will be assessed using the following measures. (Identify which measures are used to assess which outcomes.)

Student Evaluation: (1 - 10)
Employer Evaluation: (1 - 10)
Instructor on-site Evaluation: (1, 7, 8)
Learning Activities Worksheet: (3 - 8, 10)
Learning Log: (8)

PROGRAM-LEVEL OUTCOMES ADDRESSED

General Education Outcomes
Specify which general education outcomes, if any, are substantially addressed by the course by completing the “Course/Program Assessment Matrix” to show the relationship between course and program outcomes and assessment measures.

Occupational Program Outcomes
Specify which occupational program outcomes, if any, are substantially addressed by the course by completing the “Course/Program Assessment Matrix” to show the relationship between course and program outcomes to assessment measures.
Individual instructors may order this outline as fits the needs of their individual courses. In addition, they may place more emphasis on some areas than on others. What is assured is that this particular list is covered in the course. Other topics may be added to a course as the instructor sees fit, and as time and interest allow. An *asterisk can be used to mark an item as optional.

I. Industrial Technologies Internship II orientation
   A. Learning goals and activities worksheets
   B. Worksite learning lab
   C. Instructor on-site visit

II. Review of evaluation process
