Veterinary Technology and Technology Management

Your Degree Option

K-State offers a Bachelor of Science degree in Technology Management through distance education. This degree completion program is designed primarily for students who have completed the Veterinary Technology Program at Metropolitan Community College. The Technology Management degree provides a solid understanding of the fundamental areas in management: finance, accounting, business, and marketing. The curriculum is designed to prepare the student for the diverse environment of the business world as it relates to the veterinary profession. Applications for admission to this program are accepted through K-State at Salina.

Your Career

K-State at Salina's technology management graduates find jobs with large corporations and small businesses, government agencies, academia, research laboratories, and nonprofit organizations. You'll find them involved with supervisory and management positions in private and corporate veterinary practices, industry, research laboratories, universities, and governmental agencies. They can also be found using their management and business skills to advance as veterinary technicians. Our graduates also hire and supervise employees, train new managers, plan budgets, and manage inventory.

Get started!

The degree map on the reverse page will show you a listing of classes you need to take from Metropolitan Community College and K-State to complete the Veterinary Technology and Technology Management 2+2. This degree map has been reviewed and accepted by both schools as an illustration, which is subject to change. Many other combinations of courses may be possible, so students should contact a K-State representative or their community college advisor before committing to a particular transfer program.

To get started, contact the K-State 2+2 representative by calling 620-786-1188 or e-mail jdunn@k-state.edu.
