#### CAREERS

Certified nurse assistants work in a variety of health care settings including: Long-term care, assisted living facilities, hospitals and acute care, home health care, hospices and physician offices.

#### DESCRIPTION

This course instruction utilizes a humanistic approach to provide basic care to people in a variety of health care settings. Studies include the operation of health care systems and necessary skills to function safely and efficiently in a health care setting. This first step in our health care career path prepares you for more advanced professional opportunities.

The 215-hour training program includes 91 of hours lecture and 124 hours of clinical instruction. Clinical experiences are conducted in a hospital facility under the supervision of an MCC clinical supervisor. This training will prepare you to take both the written and skills state board CNA exams.
