YOUR FUTURE.
CAREER READY. TRANSFER READY.

However you picture your future, MCC can help you achieve it. You’ll join a diverse student population — coming out of high school, looking to be promoted or change careers, or picking up credits to transfer to a university. You’ll choose from 120+ career programs taught by faculty with real-world experience. And MCC’s student support and advising experts are second to none. Your future is waiting — our goal is to help you get there.
YOUR FUTURE.

Everyone’s destination is unique. MCC is the next step toward your destination and gives you flexibility to create a schedule that works for you with day, evening, weekend and online classes. Multiple locations near you. Quality instructors and valuable support services like tutoring and advising. Reach your potential by building the skills you need to succeed however you define it.

Metropolitan Community College instructor Brian Hurley was one of just 22 honorees nationwide to receive the 2019 Dale P. Parnell Distinguished Faculty award from the American Association of Community Colleges.

Hurley, cybersecurity program coordinator and a computer science and information systems instructor, is also an alum of the college. He was recognized for gathering student and community feedback and using it to strengthen the CSIS program. The award also means he goes beyond the basics to ensure students are successful.

The award is presented to faculty who support students inside and outside the classroom, participate in college committees, and go beyond what is required to ensure that students are successful in their academic endeavors.

Hurley was also the driving force behind MCC’s successful bid to be named a National Center of Academic Excellence in Cyber Defense for its cybersecurity program — one of just 70 two-year colleges in the nation to reach that top-tier designation.

With Hurley’s help, MCC opened a new cybersecurity lab on the Blue River campus.

He also launched MCC’s student Cybersecurity Club, sponsors students in the National Cyber League Cyber Competition, created two information security student intern positions, and hosts student tours of Cerner Corp.’s Data Center, among other accomplishments.

The chair of the business technology division at MCC-Blue River calls him a natural instructor: “Students not only gravitate to Brian, but they come back again and again to share their successes. His passion shows in the way he pursues opportunities to further a student’s path to either go immediately into a job or to continue with a higher degree.”
PROGRAMS

TRANSFER DEGREES
These degrees prepare you for a four-year degree:

- Associate in Arts
- Associate in Arts Teaching
- Associate in Computer Science
- Associate in Engineering
- Associate in Science – Biology
- Associate in Science – Chemistry
- Associate in Science – Pre-professional studies – Health Emphasis
### CAREER AND TECHNICAL DEGREES & CERTIFICATES
Prepare you to enter the workforce: (D-Degree, C-Certificate)

#### ARTS & COMMUNICATION
- International Studies – C
- Foreign Language Interpreting - C
- Graphic Design – D/C

#### BUSINESS MANAGEMENT & TECHNOLOGY
- Accounting - D
- Business Management - D
- CCNA, CCNP and Security - C
- CISCO Networking - D/C
- Computer and User Support - C
- Cybersecurity - D
- Geographic Information Systems - C
- Logistics Management - D/C
- Network and Systems Support - D/C
- Retail Management - C
- Software Development - D/C

#### HEALTH SERVICES
- Coding Specialist – C
- Community Health Worker - C
- Dental Assisting – D/C
- Emergency Medical Technician/Paramedic – D/C
- Health Information Technology – D
- LPN to AND Bridge – D
- Occupational Therapy Assistant – D
- Physical Therapist Assistant – D
- Practical Nursing – C
- Professional Nursing – D
- Radiologic Technology – D
- Surgical Technology – D

#### INDUSTRIAL & ENGINEERING TECHNOLOGY
- Architectural Engineering Technology - D
- Automotive - D/C
- Building Maintenance & Construction – D/C
- Civil Engineering Technology - D
- Computer Aided Drafting & Design - D/C
- Computer & Electronics Engineering Technology - D
- Computer Integrated Machining & Manufacturing - D/C
- Construction Management – D/C
- Construction Trades Apprenticeship Degree Completion - D
- Heating, Ventilation, Air Conditioning & Refrigeration (HVAC/R) - D/C
- Industrial Controls – D/C
- Industrial Electrical – D/C
- Industrial Maintenance – D/C
- Industrial Technology Apprenticeship Degree Completion – D
- Lathe – C
- Lineman – D/C
- Mechanical/Manufacturing Engineering Technology - D
- Military Technology – D
- Mill – C
- Millwright – D/C
- Multi-Craft Technician – D
- Stationary Engineering – D/C
- Welding – D/C

#### NATURAL RESOURCES & AGRICULTURE
- Energy Efficiency – C
- Environmental Health & Safety – D/C
- Photovoltaics – D/C
- Veterinary Technology – D/C

#### HUMAN SERVICES
- Criminal Justice – D/C
- Early Childhood Education and Development – D/C
- Fire Science Technology – D/C
- Occupational Education – D
- Paralegal Practice – D
- Police Science – D/C
About one-third of students at MCC are earning credits to transfer to a four year university — and at a cost savings of more than 30%. With dozens of transfer agreements with other schools across the metro and the nation, and advisors here who are experts in transferring, your choices are unlimited. Transfer specialists from other colleges visit MCC and are available to answer your questions.

It’s your future: we’ll guide your path.

**STUDENT SUCCESS SPOTLIGHT**

**STARFISH**

MCC students have direct connections to their personal advisors and instructors through Starfish, your online portal that keeps you on track toward your goals. Transferring credits or working toward your Associate in Arts degree or certificate gets a personalized touch; Advisors and instructors can help you keep on the path. It’s also a great place to check on your MCC Degree Plan: a customized road map of the classes you’ll need and timeline to follow to ensure you stay on track.
Your education and training at MCC goes way beyond the classroom and we’ve got thousands of alumni to prove it. Hands-on experience in cutting-edge labs or in-the-field experiences throughout Kansas City. Guided by instructors with real-world experience and connections to help you land the next job. Our program offerings are in careers that are in demand in our region and pay $30,000-$80,000 per year. At MCC, we help you find your passion and develop your skills: a bright start to your future.

AVERAGE EARNINGS IN THE KCMO METRO AREA

The average associate degree graduate earns $9,400 more than a high school graduate at their career midpoint.

FACULTY FOCUS

BOB WILLIAMS

Metropolitan Community College psychology instructor Bob Williams has developed two games to help students effectively work through the decision-making process. He calls it “The Athena Program,” named after the Greek goddess of wisdom.

The games put teams of students in real-life situations and requires them to make decisions about changing variables within the games. The games are played out across four boards where students can see the impact of their decisions while teaching key elements of decision-making skills including critical and creative thinking. They also help develop leadership and teamwork skills along with sharpening personal relations and problem solving.

Williams compares the games to a flight simulator for pilots. It creates a safe environment where students can learn from their mistakes without any real consequences.

“The idea is to create a program that would help college students work in the real world,” Williams says. “We try to teach the principles of real-world decision making so people can learn them and apply them.”
YOUR BEST EDUCATIONAL VALUE

MCC tuition is one-third that of the cost of four-year colleges and universities. Added value includes:

- The flexibility of earning your degree or certificate online
- Classes that have shorter run times starting mid-semester to fit your schedule
- Instructors with real-world experience in your field
- Student support and advising to keep you on track and support your goals
- Becoming career-ready while earning your credits, certificate or degree

*Awarded automatically to qualified students who submit their FAFSA to MCC by May 1. Priority is based on enrollment date, as funds are available.
Parking is complimentary on our campuses. Use your student ID and ride the bus for free. Need a tutor? Tutoring services are available at no charge too. These are just some of the extras that are yours as an MCC student. Visit today to learn more about these student success resources!

“You actually get to know your classmates and instructors and build relationships with them. Everyone here does their best to make sure you’re on the right path to success.”

– Hannah Ousley, Kearney

“I appreciated the help I got and that things were done in a timely manner. Get involved on campus. When you interact with other students and instructors, you might learn something you didn’t expect.”

– Abigail Jerry, Kansas City

“Don’t do your journey alone — use your resources.”

– Teeka Hodge, North Kansas City
The Borton family had a problem: because he was born without a left hand, 3-year-old Hudson couldn’t figure out how to ride his brand-new tricycle. So his parents turned to MCC’s FabLab for help. That’s the specialized 3-D printing facility MCC students use in their engineering programs.

Engineering technology program coordinator Mike Cline, instructor Chris Page and MCC student David Valdez put their skills — and hearts — into designing a custom prosthetic attachment that would allow Hudson to test out his new wheels. The three completed the design in less than two days, then used MCC printers to produce the device that would let Hudson race on his trike for years to come.

“It’s hard to describe what you get out of something like this,” said Valdez. “To see the look on his face and his parents’ faces brought me a lot of joy.”

Hudson’s parents agree. “The people at MCC didn’t know us. They didn’t have to do all of this, but they took the time to help us,” Lyndsey Borton, Hudson’s mom, said. “There’s a lot of craziness in the world right now, and to have people like this at MCC be so kind … it means so much to our family.”

You can choose from designated study areas like the Student Success Center at MCC-Penn Valley, which is equipped with group study rooms, specialized software and other tools to help you navigate your classes.

Career Services experts can help you access resources outside of your classes to help you get your foot in the door of your chosen career — or move up in your current one.

The labs and facilities provide hands-on experience and are constantly updated with the help of local businesses and community partners.

You’ll be paired with an academic advisor, who will make sure you’re staying on track with the number of classes and credits you need, as well as help with any other items you need for success.
CAMPUS LIFE

You will experience the full college experience at MCC — it’s not just about classes and training! Choose from 40+ student clubs, organizations and intramurals … social and leadership opportunities will help you develop skills for the future.

As a student leader I’m constantly growing and looking for new ways to improve my skills set.
