COMMUNITY EDUCATION FEES

4.10030 DR

In accordance with the board policy on community education fees, the following will be the basis upon which fees will be determined:

1. The fees for community education courses will be established on an amount per contact hour that will balance the expenditures for instruction, facilities, materials/supplies, and indirect administrative overhead. The total revenues that will be generated per contact hour will determine the minimum enrollment required for the course to be conducted.
2. The fees for community services activities will be established on an amount per person as the result of balancing the projected number of participants with the total direct and indirect costs for delivering the service.
