

METROPOLITAN COMMUNITY COLLEGE

DISTRICT REGULATION

7.40025 DR

ACADEMIC RENEWAL

7.40025 DR

At any point prior to graduation, a student may elect academic renewal for grades earned at MCC during semesters of the student's choice completed at least five years prior to the date of the request and after completing fifteen credit hours at MCC with a cumulative Grade Point Average (GPA) of 2.0. Once elected, academic renewal applies to all MCC courses, whether passed or failed, taken during the semester chosen by the student for renewal.

Academic renewal does not erase the student's academic record or remove a student's transcript from MCC records. The grades received are removed from the student's GPA with an appropriate notation on the transcript indicating the election of renewal.

Credit hours included in academic renewal cannot be used to meet any requirements of graduation, prerequisites for courses or certification.

Once approved, academic renewal is irrevocable. Students are expected to consult an academic advisor prior to election of academic renewal. After a student notifies the Registrar of his/her election of academic renewal, the final approval for all academic renewal applications will be processed by the Dean of Instruction.
