Associate **of** Applied Science (A.A.S.)

Engineering Technology - Computer & Electronics Emphasis – Advising Track

This program leads to an Associate of Applied Science degree and certificate. The degree prepares the student for employment in a broad range of engineering, architectural, and related fields. Graduates will have a strong background with multiple computer aided design technologies and an understanding of basic design principles in various engineering and architectural fields. This program transfers to area universities if the student wishes to pursue a four-year degree in Computer Aided Drafting and Design.
