Associate in Arts (A.A.)

Social Work Emphasis – Advising Guide

Social Workers are professionals who go out into the world and work with people to assist them in meeting life's challenges. By pursuing a bachelor's degree in social work, you will be prepared with the knowledge, skills, and values for entry-level (generalist) social work practice and for advancement to graduate level study. Our social work program is built around the Associate in Arts (AA) degree. This degree gives you a solid background in general education courses that can transfer to a four-year institution.
