## Metropolitan Community College Penn Valley

# Student Information and Application Packet 2026

### Radiologic Technology Program

Thank you for your interest in the Radiologic Technology Program.

Metropolitan Community College Penn Valley is accredited by the Higher Learning Commission, 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604.

The Radiologic Technology Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT); 20 N Wacker Drive, Ste. 2850, Chicago, IL 60606-3182. Any questions regarding our accreditation status may be addressed by contacting the JRCERT (<u>www.jrcert.org, mail@jrcert.org</u>).

Graduates of the program are eligible to take the national certification examination for radiologic technologists administered by the American Registry of Radiologic Technologists (ARRT). After successful completion of this exam, the individual will be a Registered Radiologic Technologist, RT(R). Most states also require licensure in order to practice. Some state licenses are based on ARRT Certification/ registered status. A criminal background may affect a graduate's ability to take the ARRT Certification Examination or attain state licensure.

The field of radiologic technology is exciting, diverse, and rewarding. Physicians rely on the expertise of radiologic technologists to produce diagnostic images of the human body. A variety of work settings are available such as hospitals, outpatient imaging centers, physician's offices, urgent care centers, clinics, and mobile radiography companies. Individuals who work in radiology may choose from several shift options: daytime, evenings, nights, weekends.

We encourage our program graduates to continue their education for enhanced upward mobility within the radiologic science field. Advanced imaging modalities include mammography, bone densitometry, computed tomography, magnetic resonance imaging, radiation therapy, nuclear medicine, sonography, interventional radiography, and vascular imaging, including angiography and cardiac catheterization.

During your academic experience, students will be exposed to a very hands-on and interactive learning environment that is both supportive and challenging. Students' education also includes clinical experience at various facilities which will involve direct patient contact and involvement with community professionals. Students should consider this responsibility both an opportunity and a requirement.

The Performance Standards included in this packet, should be used to assist each applicant and student to determine if they are otherwise qualified to be a radiologic technologist. It is the policy of MCC – Penn Valley to provide reasonable accommodations for individuals with disabilities. If you need an accommodation due to a disability under the Americans with Disabilities Act and Section 504 of the Rehabilitation Act, please contact the Disability Support Services (DSS)

Revised: 02/2025

Coordinator at 816-604-4293. Advance notice may be necessary for some accommodations to be provided in a timely manner. Accommodations must be supported by adequate documentation and are determined on an individualized basis.

Students should understand that while working in a health care setting, they may be exposed to blood and body fluids, however, the risk should be minimal if appropriate precautions and personal protective equipment are employed.

This packet includes all the information you will need to apply to the program. After reviewing this information, if you have more questions, please e-mail <u>Radiologic.Technology@mcckc.edu</u>

Good luck with your educational pursuit!

#### MCC-PV Radiologic Technology Program

Program history and mission statement:

- The radiologic technology program at MCC has been in continual operation since 1969.
- The Radiologic Technology Program of Metropolitan Community College- Penn Valley will prepare students for competent entry level service in the healthcare community of diagnostic radiologic technology and create opportunities for graduate success in the profession of radiologictechnology.

Program philosophy:

- To be functional members of society and the healthcare community, the individual must demonstrate civic responsibility and self-confidence. The educational program embraces the liberal arts, with comprehensive radiographic instruction and coordinated clinical training. These three disciplines of study comprise the three primary components of the radiologic technology program.
- These components aid the student in achieving the attributes required by the profession and the community which it serves. Admission and successful completion of the program are determined by clearly defined objectives, regardless of race, color, and creed, national origin, or gender. Our ambition is to graduate compassionate individuals who care enough to exercise their minds, giving thought to their daily professional responsibilities, as well as to the world in which they live. The program will remain flexible enough to adjust to the changing needs of the profession and healthcare environment which it serves. Faculty will demonstrate, through their activities, the value of continued education and align the radiologic technology program such that its graduates can successfully matriculate to post graduate programs of radiologic technology.

Program goals and learning outcomes: Program graduates will:

- Be workforce ready, demonstrating competence in the entry level skills of the profession
  - Exhibit proper performance of radiographic procedures
  - Formulate appropriate technical factors
  - Apply appropriate radiation protection
- Communicate effectively and appropriately
  - Exhibit effective oral communication
  - Construct effective written communication
- Think critically and apply problem solving skills
  - Adapt standard procedure for non-routine patients
  - Evaluate radiographic images to determine diagnostic quality

Degree awarded upon graduation & professional certification:

- Associate Degree in Applied Science (AAS)
- Graduates eligible to take the national certification examination administered by the American Registry of Radiologic Technologists (ARRT)

Program length and class hours:

- Two years in length (24 months/semesters back-to-back)
- Classes are held M-F; Hours may include 8:00 A.M.-4:30 P.M.

#### Requirements for students accepted to the program (Not what is required to apply.)

- Receive a "C" grade or better in all coursework
- Students will be assigned to several different clinical facilities throughout the two- year program. Some of the clinical facilities are located outside of the KC metro area. Students may be required to travel over sixty miles, one way, for a clinical rotation.
- Pass the Family Care and Safety Background Check (FCSR)
- Pass the Criminal Background Check (CBC). <u>Note</u>: Individuals with a record of a prior criminal offence are encouraged to confirm their eligibility status to sit for the National American Registry of Radiologic Technologists (ARRT) certification exam via an ethics review pre-application. Use the following link to access this resource on the ARRT Website: <a href="https://www.arrt.org/earn-arrt-credentials/requirements/ethics-requirements/ethics-review-preapplication">https://www.arrt.org/earn-arrt-credentials/requirements/ethics-requirements/ethics-review-preapplication</a>.
  - You are strongly encouraged to go through a pre-application review if you have faced:
    - Misdemeanor or felony charges or convictions
    - Military court-martial
    - Disciplinary actions taken by a state or federal regulatory authority or certification board
    - Serious honor code (academic) violations as described in our Rules of Ethics, such as patient abuse, violating patient confidentiality, and cheating.
- Pass a drug screening
- Pass a pre-clinical physical examination
- Obtain an annual TB test
- Obtain an annual flu vaccine
- Complete the Hepatitis B vaccination series or sign a waiver
- Submit evidence of MMR, varicella and tetanus vaccinations
- Maintain CPR certification (CPR for the health professional)

#### Answers to Frequently Asked Questions

- New RATE classes are only accepted once a year to begin the summer semester.
- The program does not utilize a waiting list of applicants.
- The following three prerequisites *must* be completed prior to applying to the program:

ENGL	101	Composition & Reading I
MATH	120	College algebra course (120 or higher preferred)
BIOL or HIM	150 100	Medical Terminology Medical Terminology

- All other prerequisites must be completed prior to the application deadline of February 15, 2026. Acceptance into the program is contingent upon successful completion with a C or better in the course(s) prior to the start of the summer semester.
- Science and math courses must have been taken within the last five years.
- Completion of the anatomy and physiology requirement, HLSC 108, BIOL 109 or Human Anatomy (BIOL 110) & Human Physiology (BIOL 210) prior to applying is strongly recommended.
- Students must have taken a placement test within the past three years and completed any required developmental course prior to applying to the program.
- The program does not have an evening, weekend, or online option.
- The program requires full-time attendance.
- The program is full time with classes and outside requirements occurring during daytime, weekday hours. Note- Students will be required to complete one week of evening shift clinical rotations in the second summer semester.
- Healthcare experience may include working in the healthcare field including medical assistant, phlebotomy, CNA, administrative or clerical roles, patient transport, support services, etc. These are just examples, there are many other aspects of the healthcare field that would also qualify. Additional options for healthcare experience could include volunteering at hospitals, clinics, or hospices, taking care of a family member with an illness, etc.
- Submit any questions you may have to <u>radiologic.technology@mcckc.edu</u>

#### Steps to Apply

- 1. Apply to Metropolitan Community College. Application to the college is free of charge. This must be done **before** you can have any transcripts submitted to MCC.
- 2. Submit college transcripts.
  - If students have previous college courses at an institution other that MCC, submit the transcripts to the MCC Student Data Center, 3200 Broadway, Kansas City, MO 64111. The Student Data Center will determine course equivalencies and post them to your MCC transcript. Please note that it may take a few weeks for transcripts to be sent and received. Therefore, do not wait too long to send transcripts, as they may not be received by the Feb 15 deadline and thus affect your application status.
  - Once all transcripts have been processed by MCC, upload an MCC advising (unofficial) transcript to the radiologic technology program along with your application. This transcript can be obtained through the academic advising office or accessed in your online student center.
- 3. Verify eligibility to apply to the program. Eligible applicants have a minimum cumulative GPA of 2.5 on a 4.0 scale. Eligible applicants must have completed the following prerequisites by the application deadline with a minimum grade of "C".
  - MATH 120 or a higher-level algebra course (must be taken within the past 5 years)
  - ENGL 101
  - BIOL 150 Medical Terminology or HIM 100 Medical Terminology
- 4. Achieve placement test minimum scores, if applicable, see page 8. ACT/SAT scores will be accepted in place of ACCUPLACER scores.
- 5. Complete a 4-hour job shadow in a radiology department. Shadow experiences must be completed within the past twelve months of the application deadline. A list of possible locations for shadow opportunities are available within this application along with the form students must take with them to the shadow. At the completion of the shadow experience the student must have an employee of the facility sign the form. This form must be submitted with the program application. More information regarding this job shadow can be found on page 9 of this document. The job shadowing form can be found on page 10 of this document.
- 6. Complete the online program student application form, <u>https://mcckc.edu/programs/radiologic-technology/apply.aspx</u>
  - To log on, use your mcc email in this format. For example, <u>s123456@mcckc.edu</u> (omit "student").
  - Use the online application to apply to MCC Penn Valley.
  - **DO NOT** include any additional materials such as letters of recommendation, cover letters, etc. with your program application. These will not be evaluated and will not positively impact your selection to the program.
  - No applicant files will be reviewed until after the February 15 deadline. Due to the large number of applicants, the program is unable to provide confirmation letters/ emails/ or phone calls as applications are received, and the file completed.

#### Placement Test Scores for Radiologic Technology

Take Accuplacer test or submit ACT/SAT placement scores. All applicants must have a current (less than three years old) ACT or ACCUPLACER reading score to be considered for the program if they have not completed ENGL 101 or MATH 120.

Subject	Score Required	Your Score	Required Classes		
		If not a 237 in the Advan	ce Algebra & Functions (AAF) level		
		*200 through 240	MATH 31 & MATH 95 in that order		
Algebra	237 (AAF)	*241 through 300	MATH 95		
		* Tested into Quantitative Reasoning, Algebra & Statistics (QAS) leve			
		237 through 262 (AAF)	MATH 120		
Deadline	249	213 through 229	READ 10/30, READ 11/31, in that order		
Reading	248	230 through 247	READ 11/31, in that order		
		200 through 231	ENGL 28/80 & ENGL 30/90, in that order		
Writing	246	232 through 245	ENGL 30/90		
		246 through 300	ENGL 101		

If students have completed or tested out of ESL, they are expected to take and complete Read 100 with at least a "C" letter grade or scored 110 on the ESL reading section of ACCUPLACER test (less than three years old). These are the required scores and classes for each section:

ESL Placement Test Scores Table						
Reading Language Listening						
110	106	86				

\*Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP) is accepted for admission into the radiology program. See scale below to view grade for prerequisites GPA for AP, IB, and CLEP credit:

AP	IB	CLEP
5 = A	7 – 8 = A	58 – 80 = A
4 = B	5 – 6 = B	51 – 57 = B
3 = C	4 = C	50 – 56 = C

#### **Job Shadow Requirement Information**

Applicants of the MCC-PV Radiologic Technology program are required to participate in a job shadow experience in a radiology department. Students can job shadow at any hospital, imaging center, clinic, or urgent care they choose to. The RATE program does not require the job shadow to be completed at a specific location.

A job shadow allows students to observe first-hand what a radiologic technologist does in an actual radiology department. The student will gain a better understanding of the career and may begin to make connections between their talents, skills, and interests in the career. The job shadow experience will help students make viable educational and career choices.

Once students have scheduled their job shadow experience, they should ensure they arrive at least 5 minutes prior to the scheduled start time. Keep in mind this is a place of business, so make sure you always demonstrate quality employability skills and behavior. Students should make sure to ask about dress code, cell phone, and safety rules when scheduling the job shadow experience.

On the following page is the job shadow form for the RATE program. Students must print this form and take it with them to their job shadow experience. The form must be submitted in the application.

Below is a list of opportunities around the Kansas City metro area that can typically accommodate those wanting to shadow a radiology department.

- North Kansas City Hospital
  - o https://www.nkch.org/for-students/school-to-career/job-shadow-form
- University of Kansas Medical Center
  - https://www.kansashealthsystem.com/giving/ways-to-give/volunteer/clinical-shadowexperience
- St. Luke's Hospital Network
  - o https://www.stlukes-stl.com/careers/job-shadowing
- University Health (Formally Truman Medical Center)
  - <u>https://www.universityhealthkc.org/about-us/volunteer-services/request-to-shadow-or-observe/</u>
- Western Missouri Medical Center, Warrensburg, MO

   <u>https://wmmc.com/job-shadow-programs/</u>
- Providence Medical Center in Kansas City, KS & St. John Hospital in Leavenworth, KS
   Contact Tiffany Day at TDay@primehealthcare.com to schedule.
- University of Missouri Health Care in Columbia, MO
  - o https://careers.muhealth.org/us/en/job-shadow-program
- Golden Valley Memorial Healthcare in Clinton, MO
  - Call the main hospital number (<u>660.885.5511</u>) and ask to speak with someone in Human Resources. HR will help you schedule the shadow experience.

#### MCC-PV Radiologic Technology Program Applicant Job Shadow Form

Student Name:	Date of Shadow:
Name of Facility:	

Name of Shadow Supervisor: \_\_\_\_\_

The following questions are to be completed by the supervisor of the shadow experience.	Yes	No
Did the student arrive at the scheduled time?		
Did the student display appropriate behavior at the facility?		
Did the student ask appropriate questions related to the radiology field?		

#### Shadow Supervisor Signature: \_\_\_\_\_

Please provide a short reflection of your job shadow experience.

#### MCC Radiologic Technology Program Selection Criteria:

#### Information About Radiologic Technology Application

- Qualified applicants must:
  - Possess a high school diploma or GED certificate.
  - Have a cumulative GPA of at least 2.5 for all college coursework.
  - Have completed or be enrolled in prerequisite courses.
  - Have taken a placement test and achieved the minimum scores with in the past three years.
  - Attend a job shadow experience in a radiology department and submit the form.
- **DO NOT** include any additional materials such as letters of recommendation, cover letters, etc. with your program application. These will not be evaluated and will not positively impact your selection to the program.
- Student applications will not be reviewed until after the February 15 date. Due to the large number of applicants, the program is unable to provide confirmation letters/emails/or phone calls as applications are received, and the file completed.
- This college does not discriminate on the basis of race, color, national origin, sex, age or disability in admission or access to or treatment of employment in its programs and activities. MCC provides a range of services to allow persons with disabilities to participate in the educational programs and activities. If you desire support services for the application process or coursework, contact the Disability Support Services (DSS) Coordinator, 816-604- 4293.
- If students desire academic advising, please connect with your personal MCC Advisor or visit any MCC Student Enrollment Center to speak to an Advisor.
- Applicant selection is based on metrics determined by:
  - Academic performance, including but not limited to the number of general education and prerequisite courses completed and grade performance in each course.
  - Attending a job shadow experience in a radiology department and submit the form.
  - Documentation of prior health care experience.
  - See selection criteria for specific metrics.
