**Surgery Observation Record**

Dear Director of Surgical Services:

As part of the application process at Metropolitan Community College, prospective surgical technology candidates are required to spend **2** hours in a surgical setting to observe a surgical procedure. The student is to complete this form and submit to the Surgical Technology Coordinator at MCC-Health Science Institute.

Thank you for your assistance and time in allowing the student to make an informed decision regarding surgical technology as a career.

Respectfully,

*Roger V. Massey*

**Program Admission:**

I understand that the program capacity is limited and therefore, the application process is competitive. As such, if the number of applicants exceeds the number of positions in the program, the best qualified applicants will be determined based on: Academic performance, including but not limited to: calculated grade point average of any course taken towards the degree, grades in Intro to ST and/or biology courses, history of repeated coursework and dropped courses, degree attainment, and demonstrated ability to handle a full academic load, volunteer or work experience related to health care, written paperwork, references and interview

**Program Policies:**

1. The program is time consuming and it would be difficult for an individual to work more than 24 hours/week after the first academic semester.
2. The program requires a commitment to attendance and study time that is more rigorous generally than many other courses of study.
3. The program has a set of policies that includes the following:
  - a. Students must receive a minimum grade of 75% or greater in each surgical technology course in order to successfully pass the course. If a student fails to achieve a 75% in a surgical technology course than they would not be permitted to participate in subsequent sequence of surgical technology courses. That student would need to reapply to the surgical technology program.
  - b. Students must demonstrate minimum competency on certain skills to pass a course.
  - c. The program has attendance policies that include point deductions for tardiness and absences
  - d. Students must adhere to clinical guidelines of affiliated health care institutions that will require students to undergo criminal background checks. Individuals with felony convictions or class A misdemeanors may be unable to complete clinical rotations or obtain employment in certain health care settings. For more information on criminal background checks see the Prospective Student Packet.
  - e. Students may be required to undergo a drug screen when participating in clinical rotations and may be dismissed from a clinical as a result of a positive drug screen.
  - f. Students may be exposed to blood and body fluids on clinical rotations, however, the risk should be minimal if standard precautions are observed.
  - g. Students will be required to show proof of current vaccination and/or titer results, and undergo a physical examination prior to clinical rotations. Students may be required to undergo certain vaccinations in order to advance to the clinical portion of the program because of current hospital policy.

I have read and agree to abide by the policies of the Surgical Technology Program.

**MCC - Drug-Free Workplace, Campus and Community  
Drug Screen Policy**

**MCC – Penn Valley** is committed to maintaining high standards in all programs including allied health and nursing education and practice. Safe practice includes efficient, reliable, and unimpaired student performance at all times including in the classroom and in a clinical setting. Being under the influence of drugs or alcohol poses serious safety and health risks not only to the user but also to all persons who come in contact with the user. Students are required to perform all education related activities in appropriate mental and physical condition

**MCC-PV** has adopted the Federal Drug-Free Workplace Act of 1988 and Drug-Free Schools and Communities Act Amendments of 1989. The policy is one of zero tolerance. Together with the college’s Drug-Free policy, the Code of Student Conduct imposes prohibited conduct and possible disciplinary action. If in violation of these policies, students subject themselves to disciplinary actions up to and including suspension or expulsion from the college and its programs.

Clinical facilities are committed to providing a safe environment in order to protect its patients, residents, employees and visitors; to provide the highest level of service; and to minimize the potential for accidents and injuries. Therefore, many of the clinical contracts between **MCC – PV** and hospitals, clinics, and other facilities have a component requiring drug screening for allied health and/or nursing students. The clinical site might require that an **MCC – PV** allied health and/or nursing student complete and pass a drug screen prior to being admitted into the facility as a student. Additionally, some clinical facilities require random drug testing during the duration of a clinical rotation. Refusal to submit to a drug screen or testing positive can make a student ineligible to participate in clinical training.

The cost for a drug screen may be covered by the clinical facility. If not, the student is responsible for the cost.

I understand the policy as outlined above and agree to abide by this policy.
