

The following graduation and transfer rates for Metropolitan Community College are based on the Student Right to Know cohort, which is defined as first-time, full-time, certificate- or degree-seeking freshman as reported to the Integrated Postsecondary Education Data System (IPEDS), and a subset of those cohort students who received athletically-related student aid. These rates reflect the percentage of students in each group who either completed a program of study at MCC or transferred to another institution of higher education within 150% of normal time for completion of the program of study. The figures were compiled in compliance with the Student Right-to-Know Act, Public Law 101-542.

Additional Note:

While it is recommended to provide graduation and transfer data broken out by sport in addition to gender and race/ethnicity, it is required that disaggregated rates are to be disclosed only if the number of students in each group is sufficient to yield statistically reliable information and would not potentially reveal personally identifiable information about an individual student.
